Email: raviraj82891@gmail.com

Mobile: +91-8797797083

SKILLS

Languages: C++, Java, C, C#, Python, GDScript, Prolog

Web Technologies: HTML, CSS, JavaScript, PHP

Tools/Platforms: MySQL, Linux, AWS (EC2, S3, CloudFront, Lambda)

Core Concepts: System Design (Scalability, Load Balancing, Caching, REST APIs)

Game Engines: Godot Engine, Unity Engine

Networking: Network Configuration and Troubleshooting

Soft Skills: Problem-Solving, Team Player, Project Management, Adaptability

PROJECTS

EmergencyMesh (Capstone Project): [Link](#)

April 2026

- Developed an Android-based emergency communication app enabling infrastructure-free messaging using Bluetooth Low Energy (BLE) mesh networking
 - Implemented multi-hop message propagation without internet or cellular connectivity
 - Designed a probabilistic flooding-based routing system for efficient alert broadcasting
 - Integrated real-time location sharing and duplicate suppression mechanisms
 - Built a scalable mesh architecture with low-latency communication (<1s discovery time)
- Technologies:** Android, BLE, Java/Kotlin, Networking Concepts

Chess Engine with AI Integration: [Link](#)

May 2025

- Built a chess engine using Python and Pygame, capable of human vs AI gameplay.
 - Integrated advanced decision-making algorithms including Minimax, Alpha-Beta Pruning, and Greedy evaluation for optimal move prediction.
 - Implemented dynamic board rendering, move validation, and custom game logic for a realistic playing experience.
 - Showcased expertise in AI algorithms, game development, and Python-based GUI implementation.
- Technologies:** Python, Pygame, Minimax Algorithm, Alpha-Beta Pruning, Greedy Algorithm

Chatbot Project: [Link](#)

January 2025

- Created an interactive chatbot using HTML, CSS, JavaScript, and APIs, hosted on Netlify.
 - Showcased expertise in API integration and responsive design for seamless user interactions.
- Technologies:** HTML, CSS, JavaScript, APIs

CERTIFICATES

- Quick Heal Certified Digital Forensics Investigator | Quick Heal Academy [Link](#) April 2026
- IBM SkillsBuild Data Analytics Certificate | IBM [Link](#) February 2026
- Web Design for Everybody: Basics of Web Development & Coding | Coursera [Link](#) July 2025
- Artificial Intelligence Essentials | Coursera [Link](#) March 2025
- Responsive Web Design Certification | Freecodecamp [Link](#) August 2023

ACHIEVEMENT

- Secured 1st Position:**
National Research Conclave on Artificial Intelligence & Innovations 2026 (Paper ID: NRC_052) for research on *BLE Mesh Networks for Emergency Communications*, outperforming national-level submissions in IoT & AI domain
- Google Hackathon:**
Participated in a summer hackathon organized by my college.
- Contributed to Open Source:**
Actively contributed to open-source cybersecurity tools and projects
- Completed Multiple Online Certifications:**
Earned certifications in key areas of cybersecurity, including CompTIA Security+

EDUCATION

Lovely Professional University

Phagwara, India

Bachelor of Computer Applications (Hons) in Cybersecurity CGPA :7.35

Since August 2023

Vig English School

Jamshedpur, Jharkhand

Intermediate

April 2021 – March 2023

Vig English School

Jamshedpur, Jharkhand

Matriculation

April 2020 - March 2021
